PAYNE VERSES BRING \$160.

I'wo stanzas of "Home, Sweet Home," a three-line chorus under each, in tograph of John Howard Payne, sted Washington, March 2, 1851, were id for \$160 yesterday to George D. Ith at the sale of the library of John Burion of Milwaukee in the Anderson

The stanzas were mounted in a large ak and gilt frame together with afficavits of witnesses to the manuscript, and with a letter by Mrs. E. H. Hinck-ley, daughter of G. W. Wright, to whom the manuscript was presented by Payne and with correspondence in negotiation for the manuscript.

J. P. Drake paid \$110 for a Revolutionary broadside issued by the General Court of Massachusetts Hay, under date of Jan. 23, 1776, denouncing British scorn of American rights.

To People Who Are Distinguished Gathering at Under Normal Weight

Suggestion for Thin, Undevelop-Want to Put on

Want to Put on Fiesh.
Fiesh.
Fiesh.
Thousands of people who suffer from seessive thinness, wishing to take on ten to weaty-five pounds of heating it rises and cheers greated the official French are seessive thinness, wishing to take on ten to weaty-five pounds of heating it rises and through the weight up to the normal have tried advertised friesh builders, food she without success and have fined advertised fresh builders, food she will be specially related by many other stands and the nothing can make them fat. Yet their case is son necessarily hopeless in the list of appeliance are recently related by many other states own.
Many people once thin and underweight the tell of remarkable increases in significant to the propose of the prisoners of the prisoners who was the seen and they find the pictures show the war as it is, which greates the pictures show the war as it is, which is to remark the age to the prisoners who was the seen with the about the pictures show the war as it is, which is to remark the same and they are the commandation of the prisoners who are the prisoners were so numerous that to remark and or distinguished the pictures show the war as it is, which were shown and their wives made and the propose state has immediately followed its principal value would appear to be in the rapid increase in weight which so many people state has immediately followed its of the prisoners when the present the principal value would appear to be in the rapid increase in weight which so many people state has immediately followed its of the prisoners when the present the principal value we might it ill health to assess the principal value we might it ill health to assess the might will be given as a special exhaultent of the prisoners when the present the very house of the prisoners when the present the principal value we might in the principal value we mig

Pirst the great preliminary bombardment, showing every kind of gun

CHEER AND WEEP OVER WAR FILMS SHOWN BY WORLD

Pictures Taken on French Line Exhibited at Embassy in Washington.

Capital Wonders at Realism of Views.

WASHINGTON, Nov. 19 .- Tears

Some of the scenes were so realistic that it did not seem possible that the operators who took them could have survived. In the bombardment of the Hartmannsweilerkopf in Alsace, which has changed hands more often than

has changed hands more often than any other position in the war, and one slope of which is held by the French and the other by the Germans, the shells could be seen bursting in turns over the trenches and in front of the moving picture camera.

This picture also showed the actual use of poisonous gas. The German trenches were quite plain, like the bars of a huge gridiron, and from them could be seen rising the thick clouds of smoke, never more than ten or twelve feet from the ground, which rolled slowly over toward the French attackers.

Another most impressive scene that brought home more vividly the enor-

brought home more vividly the enormous quantities of guns and ammuni-tion in use was a film showing a movement by one hundred batteries of the famous French 3-inch field gun, the terrible "Solxante-Quinze." The sight of these six hundred cannon, with the ammunition limbers and IF YOUR FEET ARE SICK triffed the spectators.

they make ou sick Flat feet and broken arches, swollen and rhesh make feet can be cured Various wonderful pictures of the recent advance in Champagne where more shall be returned from the state of the recent advance in Champagne where more them to returned for the recent advance in Champagne where more than too returned feet of the target of the recent advance in Champagne where more Most impressive of all were the wonderful pictures of the recent ad-vance in Champagne where more than ten thousand feet of film is em-ployed to tell the whole story of the tred dependent alting perior on bold on life through being placed on the placed on the

COMING TO NEW YORK.

21,000 GERMAN PRISONERS PASS THE SPECTATORS. Then came the results of victory, resuits that cannot be questioned or denied, 21,000 unwounded German prisoners passing on the screen, and at the sight the spectators could not

restrain their joy.

And here too was one of those little touches of comedy that must relieve the horrors of war. The German

of the great war on the western front.
Mr. Powell, whose despatches have
won him fame, admits that the die-

in continuous use from the "Seventy-fives" to the huge naval guns and heavy mortars. There were guns everywhere, over every piece of ground where one could be placed and they fired so uninterruptedly that shells fell upon the German lines at the rate of twenty a second. The pictures shows it in a way that no description can.

ture shows it in a way that no description can.

Then there was the advance of the French infantry, and as the troops go forward in columns of two and then deploy one realizes how much of the spectacular has been taken from modern fighting by the intensive machine gun fire, and what nerve is needed to advance in the face of what must seem like certain death.

Never has the devastation of war been shown as in those pictures. The whole Champagne front as it passes on the screen looks like a huge machine shop, fifteen miles long and three miles broad, that might have been destroyed by fire, with an infinite variety of twisted iron work and concrete and barbed wire and overturned cannon, all utterly destroyed and swept away by the hall of high explosive shells.

21,000 GERMAN PRISONERS PASS

The marvellous growth of Internal Bathing since the advent of "J. B. L. Concade" is accounted for not only by the enthusiantic praise of its users to others, but also by physicians insisting more and more that the Lower Intestine must be kept free from waste to lasure perfect health and efficiency.

Mary L. J. Walker, M. I. P.

Mary L. J. Walker, M. L. D., Comm. N. Y., writes:

"I must tell you of a case of Conceipotion lasting for twenty years, that was cured by your Cascade treatment.

"The physician in charge said the patient had a tumor lying between the stomach and intestines. The patient being 63 years old, he claimed no help could be given except the knife; but finding the intestines in a very had state, I advised the "J. B. L. Cascade," which resulted in a complete recovery. When I took the case she was laking a faxative three times a day, and had been for three weeks; couldn't get along without it—now she never takes any laxative."

Morris Gest.

Through Mr. E. Alexander Powell, correspondent of The World with the Allied Armies, the stirring pictures of the French Armies in action, taken for the official records of the nation, have been secured. These Official Motion Pictures were taken on the battlefields and in the trenches under the direction of the Great General Staff of the French Army for the National Archives and loaned by the Government of France to the War Correspondent of The World. Argouncement will soon be made of the date on which these pictures will be shown in the United States for the first time. Under management of
